Dear Miss Beard:

The Travelers Insurance Company is currently involved in an investigation concerning our policyholder's involvement at the above captioned site.

I am interested in accessing your records which may show our policyholder's involvement with the above site. Additionally, I would like to review the files on the site so as to provide a clear picture of their birth, operational history (including regulatory enforcement during years of operation), the nature and extent of the contamination problems, the cost of the Investigatory Response and Remedial Measures, as well as copies of any reports, newspaper articles, etc. which reference these issues.

Would you please notify me when the materials become available for review. If you would like to discuss this matter, I can be reached at (313) 423-2316.

Sincerely,

Raymond L. Garstecki
